Subject: re: zoning application 13-210-000006 Avilla

Attention Joe Schmitz

I am unable to attend the March 31/14 public hearing but I did want to write to you regarding the subject rezoning.

when I first heard about this, there was much speculation and little fact.

After researching and reading the content of Avilla's rezoning application, I really can't see why I would oppose the change.

If the information contained is accurate and Avilla will be strictly held to what it proposes, then I would be in favor of the change.

In particular, I am pleased with Avilla's commitment to limit new building heights to a maximum of 16ft and the commitment to build fewer units than fully allowed by the zoning change.

The objectors claim traffic issues.

Won't be any worse than if a commercial complex is built.

Decreased home values

Won't be any worse commercial complex is built. in fact a commercial complex could have a worse effect on home values.

Overburdened schools

not sure on this one but the development seems to be targeting professionals and perhaps retirees.
if so then this would have limited impact on schools.

loss of commercial space

there is an abundance of vacant commercial space already in the area. do we need more?

Open space/park issues

the proposed plans indicate green space, pools etc. are to be provided in the development itself.
When I go by the park east of this proposed development, it is seldom busy.

So in summary, I am in favor of the rezoning, provided there are no loopholes that would allow Avilla to build units different to what is described in their rezoning application. Only you, Joe, would know if that was possible and I expect that the City of Goodyear Planning dept would have provisions to prevent this.
