CITY COUNCIL ACTION REPORT

SUBJECT: I-11 Loop 303 Annexation Opportunities

STAFF PRESENTER(S): Christopher Baker, Development Services Director

OTHER PRESENTER(S): N/A

Summary: Staff will provide information regarding annexation and opportunities in South Goodyear

Recommendation: Staff will provide Council with information on annexation policy, procedure and also annexation opportunities in South Goodyear.

Fiscal Impact: There is no fiscal impact associated with this presentation.

Background and Previous Actions

This topic has not been discussed with the City Council previously. This topic is a Council requested work session.

Staff Analysis

The City of Goodyear will be growing to the south over the coming years. There are also major public transportation improvements such as I-11 and Loop 303 proposed both in the City and just outside of the City Limits. There are, potentially, opportunities for annexation of additional land into the City where this transportation route could be constructed in the future. Staff will refresh Council's recollection of the State mandated annexation process, provide a brief update on proposed alignments, and identify opportunities for annexation. Staff will be seeking policy direction from Council.
