4.1 Review and Approve the Final Design for the Goodyear Skate Park Mural

Bonnie Lewis, Shannon Crossland, and Nyssa Iniquez shared proposed designs for the Goodyear Skate Park Mural. The Committee did not elect to approve any of the proposed designs but did provide comments on areas of strengths on each of the proposed designs. The Committee asked the mural team to provide a second iteration of designs by May 10, 2019, for Committee consideration.

4.2 Discuss 50% Plans from Creative Machines for Recreation Campus

Coordinator Ozlanski shared the 50% designs from Creative Machines for the public artwork at the Goodyear Recreation Campus. The Committee reviewed designs and provided the following comments for the artist to consider about the form, movement, and color.

-The foundation/base with the two supports provides only 6 feet of space between them. This seems to be a bit tight if two people were standing underneath to manipulate the kinetic sculpture. The Committee would like to see possible alternatives to the support.

-The Committee likes the elegant, clean lines that are created by the form.

-The Committee is pleased with the care and consideration for the longevity and maintenance of the moving pieces of the sculpture.

-Is there any potential for sound?

-The Committee would like to see research on what the saturation of the hue from the Koda Filters when cast from 20-30 feet from the ground and the life expectancy of the Koda Filter in desert climate.

-The Committee would like to see more recommendations for color scheme. The current proposal has an “analogous” style color scheme, and they wanted to see more variety. Perhaps some blue.
