File #: 16-5871, Version: 1

---

**COOPERATIVE AGREEMENT BETWEEN THE UNITED STATES BUREAU OF RECLAMATION  
AND THE CITY OF GOODYEAR**  
**RECOMMENDATION:**

Authorize the City Manager or designee to execute any and all documents necessary to enter into a cooperative agreement between the United States Bureau of Reclamation and the city to continue the concentrate management wetlands pilot study and to execute FY17 budget transfers of up to \$100,000 needed to expend the first of the three years of funding for the program.

**PURPOSE:**

The purpose of this three-year cooperative agreement is to provide enhanced testing and analysis of the existing pilot scale brine wetland located at the Bullard Water Campus. These enhanced tests and analysis are designed to provide the city staff, its engineering consultants and the United States Bureau of Reclamation (USBR) additional information that will be used to further refine and enhance the current Brine Demonstration Project which is currently in the 30% design concept report phase of work and enhancements to future potential wetland construction, operations, and maintenance. (Mark Holmes, Water Resources Manager)
